Registering a new NTU publication

To request an ISBN please complete an **ISBN application form**, providing as much bibliographic data as possible.

Publicising your new publication

The NTU Library will create a catalogue record for your new publication, and the data will be used to promote your new title via the Cataloguing-in-Publication scheme and via Nielsen BookData.

Legal deposit:

NTU is required to submit a total of six copies (free of charge) of any new publication to the British Library and to the Agency for the Legal Deposit Libraries.

Please supply six copies of your publication (within one month of publication) to the NTU Library, who will manage this for you. The material should be addressed to: Resource Discovery and Innovation Metadata Librarians, Room 323, Third Floor, Boots Library, NTU, Goldsmith Street, NOTTINGHAM NG1 5LS. Electronic material should be **emailed to us**.

Making (print and electronic) copies available at NTU

The library normally makes available copies of all NTU-published material. If your title is in print format, please supply one or more copies for our library (using the postal address above). If your publication is in electronic format, and you would like to make it freely available on IRep, please supply a PDF which will be added to IRep (subject to copyright clearance). PDFs should be **emailed to us**.
