Transforming learning through Scholarship
Session Abstract

OMG I didn't know you could do that: Technology-based tips to enhance student learning

Karen Moss, School of Science and Technology; Marek Oledzki, Centre for Academic Development and Quality et al (TILT Technology in Learning and Teaching Group)

This workshop session covered 8-10 examples of tips around technology based activities which are either designed to enhance student learning or ways of help staff to work more efficiently and have more time for students, research etc.

The session commenced with 8-10 'elevator pitches' of the tips then continued with a hands-on experience where delegates discussed the tip with an 'expert'. Some tips are very quick to learn which gave attendees the opportunity to circulate around several 'stations'– selecting the tips that appeal to them.

Examples of tips included:

- Use of online voting to enhance personalised learning (systems such as Mentimeter/Socrative /Poll everywhere (e.g. Moss K and Crowley M (2011), *Using personal response systems for effective learning*, Computers In Education, **56**, 36
- Using Mail merge for giving students individualised results & feedback
- Making staff & student life easier using features in the office suite such as Format Painter; Auto Fill & Flash fill in excel
- Using Doodle for arranging group meetings
- Using Yammer to hold online discussions.
- Using macros to convert marks to grades in excel
- New approaches for PowerPoint (using MIX + embedding websites and video)
- Padlet: a virtual collaborative whiteboard
- Bulk download of assignments and upload of feedback in NOW

Karen Moss is a Reader and also the School Quality Manager in the School of Science and Technology (SST);

Marek Oledzki is an Elearning Specialist from the Centre for Academic Development and Quality

Andy Gritt is an Academic Team Leader from the School of Arts and Humanities

David Fairhurst is a Principal Lecturer from the School of Science and Technology

Elaine Swift is a Digital Practice Manager from the Centre for Professional Learning and Development
